

## Traveling Display for Sea Grant's 50th Anniversary Year March 2016-2017

The following items are available to Sea Grant programs for conferences and other events. Please contact Brooke Carney at [brooke.carney@noaa.gov](mailto:brooke.carney@noaa.gov) to reserve any or all components. Banner stands are free-standing displays that measure approximately 3' wide and 7.5' tall. They are stored and shipped in a retractable case which also serves as the base when they are in use. Images and texts on the banner stands are crisp and high quality. The images on this document are low-resolution examples and do not represent the quality of the banners.
