Since 1990, the National Marine Fisheries Service (NMFS) and Sea Grant have partnered on the NMFS-Sea Grant Joint Fellowship program to support PhD level students in the areas of population and ecosystem dynamics and marine resource economics.

40% of alumni work for NMFS as fisheries scientists or other professionals

113 PhD students have participated in the program since it began in 1990

The NMFS-Sea Grant Joint Fellowship is a focused workforce development program to train highly qualified individuals in Population and Ecosystem Dynamics and Marine Resource Economics.

ANNUAL RESEARCH SYMPOSIUM provides an opportunity for fellows and NOAA fisheries professionals to exchange ideas and advance related scientific and management fields of study.
