Hi Jim,

Thanks much for the time and effort put into this report. .. These are all great suggestions.

I do have one correction...In the second to last suggestion the report states that OSG lacks 'an extension agent in the Astoria area'. We actually have two full time extension agents in the Astoria Area (Pat Corcoran and Mark Whitham). We lost a fisheries person in that area and seek to find the funds to refill that sort of position that will focus specifically on the Columbia River.

Thanks again

Dear Steve,

On behalf of the Oregon Sea Grant College Site Review Team, attached is our report. On behalf of the team, please accept our sincere gratitude for the warm hospitality that we received during the visit. During the review, we observed a high degree of engagement with Oregon Sea Grant from all individuals with whom we met, from senior University leadership to Oregon Sea Grant's many stakeholders. It was a pleasure to witness this enthusiasm and commitment and a testimonial to Oregon Sea Grant's effectiveness.

Please let me know if you would like to further discuss any of the report's findings or recommendations.

Sincerely,

Jim Murray, Chair of the Site Review Team
John Woeste, Co-chair of the Site Review Team
