

paid summer internship for diverse undergraduates interested in careers in fisheries, marine and environmental sciences, resource management, education, and outreach. Application deadline is 11:59 pm ET **February 18, 2022**.

[NOAA Coral Restoration Projects Funding Opportunity](#) NOAA announced the availability of approximately \$500,000 in Ruth Gates Coral Restoration Innovation Grant funding in 2022. Project proposals are sought from non-federal partners to advance scientific applications to help corals respond to threats, such as ocean warming or coral disease, and enhance the survival of sexually derived corals with the goal of increasing the range of traits within coral populations. The deadline for proposals is **February 23, 2022**.

[U.S. Department of Energy Inclusive Energy Innovation Prize](#) The U.S. Department of Energy has launched the new Inclusive Energy Innovation Prize that will award up to \$2.5 million in cash prizes to groups and organizations that support entrepreneurship and innovation in communities historically underserved in climate and energy technology funding. The prize is open for submissions for Phase One, and closes **February 25, 2022**.

[U.S. Department of Energy Energy Transitions Initiative Partnership Project](#) The U.S. Department of Energy's Energy Transitions Initiative Partnership Project works alongside remote, island, and islanded communities to transform their energy systems and increase energy resilience through strategic energy planning and the implementation of solutions that address their specific challenges. NREL is soliciting applications for the second year of technical assistance for remote, island, and islanded communities in the United States. Applications are due by **April 15, 2022**.

[2023 Call for Nominations for the NOAA Hydrographic Services Review Panel Federal Advisory Committee](#) The panel advises NOAA on operations and research issues related to navigation, hydrographic surveying, nautical charts, tides and currents, geodetic and geospatial data and measurements, Arctic priorities and coastal data and resilience. Applicants should have expertise in marine navigation, port administration, maritime shipping or other intermodal transportation industries, cartography and geographic information systems, geodesy, geospatial data, physical oceanography, coastal resource management, including coastal resilience and emergency response, or other science-related fields. Nominations are due via email no later than **April 15, 2022**.
