Free Ocean Educator Resources with Film Clips, Real-Life Data and Engaging Activities:

Green Fire Productions has just released a suite of secondary and post-secondary educator resources to accompany their 4-part film series, Ocean Frontiers. The films explore how unlikely allies – government, industry, science and conservation – are working together to find solutions that benefit ocean ecosystems and economies. Download these complimentary resources at: <https://ocean-frontiers.org/educator-resources>

The 9th National Summit on Coastal and Estuarine Restoration and Management takes place December 8-13, 2018 in Long Beach, California. This premiere event brings together more than 1,000 coastal professionals to network, learn from their peers, and engage in cutting-edge discussions. Registration closes November 28.

The NOAA Heritage-Legacy Program (formerly the NOAA Preserve America program) is now accepting funding proposals for projects within NOAA that will help preserve, protect and promote the agency's heritage assets. Interested in submitting a proposal? Partner with someone in NOAA to submit a proposals by Nov 28. [More Info](#)
